The original Slack House building occupied this site from 1891 to 1961. Over the years, it served as a room & board, doctor's office and cafeteria where neighbors gathered. We hope the new Slack House will serve as an anchor for Lakeside; a place for our neighboring communities along the shores to come together and celebrate our shared history.

In an effort to preserve our past and protect our future, a portion of revenue from the Slack House Historical Cafe will be donated to ecological and environmental initiatives that benefit Lake Erie and all those who live here or simply come to play.

**GREAT FOOD. GREAT LAKE. GREAT MISSION.**
