236 WALNUT AVENUE LAKESIDE, OH 43440

**GREAT FOOD.
GREAT LAKE.
GREAT MISSION.**

The original Slack House building was built by Dr. George A. Slack, Lakeside's first physician, as his residence and office and occupied this site from 1891 to 1961. Over the years, it has also served as a boardinghouse and cafeteria where the community gathered. The Slack House is still an anchor for Lakeside; a place for our neighboring communities along the shore to come together and celebrate our shared history.

In an effort to preserve our past and protect our future, a portion of revenue from the Slack House Historical Cafe will be donated to ecological and environmental initiatives that benefit Lake Erie and all those who live here or simply come to play.
